CRYING FOR THE MOON

"This very real feeling of inferiority is magnified by his childish sensitivity and it is this state of affairs which generates in him that insatiable, abnormal craving for self-approval and success in the eyes of the world. Still a child, he cries for the moon. And the moon, it seems, won't have him!"

— THE LANGUAGE OF THE HEART, p. 102

While drinking I seemed to vacillate between feeling totally invisible and believing I was the center of the universe. Searching for that elusive balance between the two has become a major part of my recovery. The moon I constantly cried for is, in sobriety, rarely full; it shows me instead its many other phases, and there are lessons in them all. True learning has often followed an eclipse, a time of darkness, but with each cycle of my recovery, the light grows stronger and my vision is clearer. From the book *Daily Reflections*

Step Four: Made a searching and fearless moral inventory of ourselves.

Tradition Four: Each group should be autonomous except in matters affecting other groups or A.A. as a whole.
